Atkinson, N. H., Feb. 24, 1914

The Auditor has examined and audited the report of the Treasurer of the School Board and finds his report to be correctly compiled and all payments properly vouched for.

GEORGE A. SAWYER, Auditor.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Atkinson:

I respectfully call your attention to the statistical tables following this report. They demand your careful consideration because they show a steady progress in your schools. Since our schools are still in session the statistics given in all cases are for the school year ending last June, and are the same as those returned to the state department.

MEMBERSHIP

The total membership fell from 77 to 67 but the average attendance in proportion to the total attendance increased. The per cent of the attendance 94.5 was the highest recorded at this office and higher than that of any other town in this supervisory district. Seven pupils were perfect in attendance. Last fall nearly one third of the pupils were neither absent nor tardy. Testimonials were given those perfect for the year. (For names see the roll of honor.)

Only one pupil completed the course of study and no graduation was held last June. The pupils held back, all testify now that it was to their advantage and are doing better work in consequence. An increased length of year will show its value before the coming June.

Teachers

Much to our regret we were obliged to again change teachers at the Center school, but in making the change we lost nothing but that which must always be lost before a new teacher gets adjusted to the work, and pupils get to know the new teacher. Stratton D. Brooks, President of the University of Oklahoma, formerly Superintendent of Boston's schools said recently. "A life time is none too long a term for a good teacher—a year is far too long for a poor one. It is particularly important that,

the public realize more deeply that frequent changes in the personnel of a teaching force are a serious handicap to educational progress.

Miss Mabel Smith obtained her state certificate by examination, and now three out of four of our teachers are either normal school graduates or hold the state certificate. Miss Chandler intends to pursue her studies further and that will enable us to put in a trained teacher at the Depot.

Music

Mr. Hartwell's report occurs later in this report and is worthy of your careful reading. His visits this winter have been interrupted by sickness and difficulties in getting to his schools but his good work has gone on.

Text books and Supplies

Your superintendent spent money very sparingly when first in office, not putting out a cent until he was sure it was needed. Consequently we carried over a balance of supply money last year and only a very small amount was assessed this year. This has proven far too small. New music books used up most of the assessment and other text books, absolutely necessary to good schools, have caused us to overrun the assessment and there are still bills unpaid. More money must be assessed this year.

Repairs

Renovations were made in the interior of three buildings making them very presentable. I recommend however, that modern seats and desks be provided for the Center and Depot schools, one school each year, and beginning with the Center school. The seats at the Center are much worn and consequently very noisy and hard on clothes. They are also double and a source of trouble in discipline.

Your superintendent is far from satisfied with the sanitary conditions at any of the schools. All toilets are bleak and cold. We keep them carefully inspected and clean but in no case are they accessible from the main room and at the Sawyer school one toilet is used by both boys and girls.

Compulsory Attendance

Attention should be called to the amendment made by the last General Court to the attendance law. A child is now obliged to attend school all of the time schools are in session from eight years of age until sixteen years old, unless such child shall have completed the prescribed course of study.

STATE AID

Our town benefits from the state by the following laws, which I desire to bring to the attention of our townsmen:

Literary Fund

The Literary Fund comes from taxes collected by the state on deposits, stock, and attending accumulations of depositors and stock holders of savings banks and other similar institutions who do not reside in the state or whose residence is unknown. This fund is distributed to the towns in November of each year. Our town's share of this for the past year was \$56.58.

Rebate on Tuition

The law allows school districts which do not maintain a high school to contract with an Academy or literary institution within their borders for the instruction of their pupils. This Atkinson does. The law also provides that in such cases the state shall reimburse the district up to a certain amount. This reimbursement depends upon the valuation and tax rate. Towns whose

rate of taxation for school purposes in any year is \$3.50 or more on \$1000 and whose rate of taxation for all purposes for the five years next preceeding is \$16.50 or more on \$1000, shall receive a share as follows: If the tax rate is from \$18.50 to \$19.40 three-tenths of the tuition. In December of this year we received three tenths, or \$132 from the state. The actual cost to the town district this past year was therefore seven tenths of \$30 or \$21 per pupil.

State Appropriation for Superintendent

The state pays one-half of the salary of the superintendents of supervisory districts. The superintendent must be chosen from a list of persons approved and certified by the state superintendent. A candidate for the certificate must be a college graduate and in addition must pass both a written and oral examination before the state superintendent. Atkinson received — under this section.

State Appropriation for Average Attendance

A part of the money received from the state for the support of schools depends upon average attendance. To all towns having an equalized valuation per pupil of \$2000 or more and less than \$3000, \$1.50 per school week for every 25 pupils or major part thereof of average attendance for the year next preceeding. In 1912 we received \$93 under this section and in 1913, \$102. We can draw even more money by increasing the average attendance. Every day that a boy or girl stays at home from school lowers the amount of money which we receive. The state wisely puts a premium on good attendance.

State Appropriation for Approved Teachers

The state pays two dollars a week to the school district for every teacher who holds a state certificate or is a graduate of an approved normal school. Under this section we drew last December \$136 and ought to draw

more this year.

MEDICAL INSPECTION

Medical inspection of school children has been felt to be a very great need all over the country and is being adopted rapidly by small as well as large communities. Realizing this need the last General Court passed an act authorizing districts to adopt medical inspection. I desire to outline this law for your consideration. An article in the warrant and a vote is necessary to adopt it.

Space forbids its complete quotation but its salient features are as follows:

1. The School Board shall appoint as school physicians only physicians with at least five years' experience. in the presence of the teacher at least once a year.
2. Such School Physician shall examine each child in the presence of the teacher at least once a year.
3. At any time the teacher shall notify any parent of signs of ill health or communicable disease and if the parent does not have the child examined by some registered physician within two days and present a certificate to that effect, the school physician shall examine the child.
4. Notice of the results of the examinations shall be sent to the parent by the school physician. In case of contagious diseases teachers shall send home suspects immediately.
5. Hearing and eyesight shall be tested by the teacher under the direction of the school physician.
6. The State Board of Health in co-operation with the Department of Public Instruction, shall prescribe directions for tests, record books, etc.
7. Parents may protest in writing against examination except in the case of contagious diseases.
8. The district may raise money for carrying out the provisions of this act.

As a public servant your superintendent realizes that

his position is no sinecure, but a few helpful and uplifting words dropped from time to time, have made his work as pleasant as he could reasonably expect. He thanks the School Board and all others who have helped to hold up his hands.

Respectfully submitted,

HOWARD L. WINSLOW, Supt.

REPORT OF SUPERVISOR OF MUSIC

To Superintendent Winslow and School Board of Atkinson, N. H.:

Herewith is submitted a summary of the study of music in the schools of Atkinson for the past year, taking for my facts the conditions existing at my latest visits.

It was apparent at the close of the schools last June, that new and advanced books would be needed in nearly all of the districts, as the pupils had quite exhausted the material which had been in use during the three years ending at that time. Accordingly, about the first thing accomplished at the beginning of the school year, last September, was the introduction of new music readers, which contained many attractive songs and much difficult rhythmic work for the pupils to develop, with the aid of the French time language. Not a little rivalry exists among the schools which were supplied with the new methods, and the results obtained are most gratifying to the supervisor of music.

The schools to which were given the advanced material are the Center, Sawyer, and Depot districts, each school containing upper grade pupils, as well as those of the primary grades, making it possible to thoroughly test the methods used, and develop some very satisfactory part singing.

The work of the children of the schools at the memorial exercises, last May, was very acceptable, and showed marked improvement over the previous year.

Permission is asked to add a few words in this report with regard to the work at the Academy. The pupils seem to be much interested in this special subject, and they are improving the opportunity to learn the technical part of singing, as well as practice in the songs and exercises contained in their books. The school has been much

handicapped in not having an accompanist until recently, since which time a young lady from the Center grammar school has very acceptably filled the position.

My thanks are due to Superintendent Winslow and School Board for new material and assistance; to the teachers and pupils for painstaking work and co-operation: and to all who have in any way assisted the music teacher in the performance of his duties.

Respectfully,

W. E. HARTWELL,

Supervisor of Music.
